惜物 Frugality

As one of the significant virtues of Chinese culture, frugality has been advocated and maintained for thousands of years. Nowadays, the shortage of resources has raised serious concerns. Thus, the concept of frugality and thrift are worth emphasizing. Creating a saving and simple life habit without wasting and over expanding is a small but crucial way to help maintain our sustainable resources and protect our living environment.

In addition, learning how to become more frugal is also important. For example, we should get involved in the activities of recycling, waste reduction, waste utilization and the use of renewable resources. After all, it is our planet, everything matters.

节俭是中华民族几千年来一直提倡并保持的传统美德，在资源日渐贫乏的今天，勤俭节约的观念更值得提倡，我们要养成爱惜物品、节俭朴素的品格，远离奢侈，珍惜地球有限的资源。

地球上任何的资源都是全人类的，我们要懂得爱惜身边的物品和资源，养成节俭、朴素、惜物爱物、物尽其用的行为习惯，反对和抛弃奢侈、浪费的生活观念及方式，学会一些惜物、节约的方法，参与资源回收、垃圾减量、废物利用、使用再生资源等活动，任何资源都是全人类的，珍惜资源就是爱全人类。

"From history and historical figures, we know that being frugal leads to success and luxury, failure."

"历览前贤国与家，成由勤俭败由奢。"
